AIDS CANADA'S WAR EFFORT RESERVE POWER SUPPLY

One of the modern plants of the Shawinigan system, located at Rapide Blanc, 114 miles above Shawinigan Falls on the St. Maurice River. It is of the same order as a power producer as the plant now rapidly approaching completion at La Tuque. The Rapide Blanc plant develops 160,000 horsepower and can be extended to 240,000. The La Tuque plant will come into production this fall.
